FOLLOW THE LEADER.

Powerful. Durable. Reliable.

1 Lifetime Frame & Structure Warranty
 Volvo stands behind the durability of its wheel loaders by offering a lifetime warranty on the frame, loader arm and articulation joint.

2 Volvo Performance Linkage
 High break-out torque and lifting power. All joints double sealed for long life on pins and bushings.

3 Volvo Attachments
 In-house designed for superior life and performance.

4 All Volvo Components
 All main components designed and built in-house, resulting in a perfect balance between components to maximize production and fuel efficiency.

5 Outboard Brakes & Planetary
 Axle oil circulation and outboard brakes/planetary for better cooling. Standard 100% locking front axle diffs and maintenance-free rear axle trunnions.

6 Volvo Care Cab
 Superior comfort and visibility with best-in-class air filtration, adjustable seats, armrests, heating/AC, more storage space, ROPS and anti-glare 8-inch LCD display.

7 Volvo Engine
 Volvo Tier 4 Final engine delivers high torque at low rpm, designed for high performance, durability and class-leading fuel economy backed by our Fuel Efficiency Guarantee*.

8 World Class Serviceability
 Easy access to service points due to a tiltable cab and engine hood. Three-stage air cleaner and all greasing accessible from ground level.

9 OptiShift Transmission
 Combines patented Reverse By Braking (RBB) technology and a torque converter with lock-up to eliminate power losses and reduce fuel consumption up to 18%.

» Plus
Flexible Financing - Competitive programs designed to fit all needs through Volvo Financial Services.
6-Year Free CareTrack Coverage* - All new Volvo wheel loaders come with a FREE 6-year subscription to CareTrack telematics.
Fuel Efficiency Guarantee* - If your wheel loader does not meet Volvo model-rated levels we will reimburse you a portion of your additional fuel costs.

10 CareTrack Telematics*
 Remote monitoring and real-time alerts so you can proactively manage wear parts and service maintenance and track location, fuel consumption and operation.
