## Snow Pusher to Snowplow in Seconds

The KAGE® Snowfire Snow Plow Box System for skid steers and compact wheel loaders has a revolutionary design that is built to withstand the rigors of commercial snow plowing. This patented 2-in-1 system allows the operator to switch between angle plowing, back dragging, and pushing the snow. Simply and seamlessly transition from angle plowing to snow pushing.... all within seconds and *from the cab!* That is the KAGE advantage!
